

THREEFOLD

Holder House Guest

Covid-19 Protocol

2021

At Threefold we have been doing everything we can to safely and clearly navigate what it means to live in community housing during a global pandemic, and we will continue to do so. We would love to welcome you to Holder House as a guest and ask that you please follow these guidelines:

Supporting Institution

All Holder House guests are specifically invited by a Threefold Community institution, which is responsible for your presence here on campus. Your supporting institution is also standing behind these guidelines, and holding you accountable for them. If these agreements are not upheld, we will inform you of your need to find other housing.

Covid-19 Symptoms/Exposure

Holder House is a community living environment which is not equipped to support quarantine or isolation in the event of Covid-19 symptoms or exposure. If you have any Covid-19 symptoms or exposure please self-isolate immediately and obtain a Covid-19 test. If the test is positive, we ask that you inform us immediately and continue to self-isolate - and we strongly recommend finding other accommodations as Holder House is not available for long-term isolation. There is a list of local hotels at www.threefold.org/housing if you need other accommodations.

State Guidelines/County Protocols

Threefold is following State and County guidelines, see **Rockland County Guidelines on their website:** <http://rocklandgov.com>. Keep in mind that these may change as new information becomes available.

Pre Arrival

All Holder House guests are required to have a vaccination or a negative Covid-19 test result before arrival, and within 72 hours. By coming to Holder House you are agreeing to these requirements.

Masks and Distancing in Holder House

Holder House accommodates more than 40 people sharing a space simultaneously, therefore **everyone is required to wear a mask at all times whenever outside of their room**, regardless of vaccination status - including in kitchens, hallways, lobbies, the laundry room (and bathrooms when possible).

Kitchens are limited to a maximum of 8 people at a time. Once you have prepared your food in the kitchen, all guests are asked to eat in their rooms or outside. Please do not eat in the kitchen; only use the kitchen for food preparation.

Holder House has been divided into sections based on different programs and guest groups with separate quarters, bathrooms, kitchens and entrances. **Please only use the section assigned to you, do not enter other kitchens, and do not use other entrances or quarters.**

No Visitors in Holder House

Holder House is not open to visitors, only registered guests and residents. This applies to all Holder House spaces (rooms, kitchens, etc.).

Thank you for your understanding, patience and participation as we all navigate opening our doors into the future.

Holder House Guest Covid-19 Protocol Agreement

I have read and understand the practices, policies and guidelines in the Holder House Guest Covid-19 Protocol Document. I understand that if I do not follow the above mentioned guidelines I will be asked to leave Holder House.
